

Quick Ship Work Center Solutions

Featuring

- ▶ ergonomics
- ▶ adjustability
- ▶ ESD options

...all shipped within 5 days!

Welcome to Quick Ship, IAC's speedy procurement system.

Products ordered from this catalog are shipped on, or before, the fifth working day (quantities of 10 or fewer) after receiving an order. The Quick Ship collection is based on IAC's most popular products and accessory options.

IAC products are proudly made in Arizona, USA, and are the finest industrial furnishings and productivity equipment available.

To Order please call 714.990.8997

Dimension 4 Modular Workstations

Dimension 4 workstations are fully adjustable, enabling each worker to set up footrests, shelving, worksurface and other components for personal comfort and efficiency.

The Single Sided Starter is the first building block for the single sided system. You will receive two uprights and a worksurface assembly with 180° rolled front edge. ESD worksurfaces and options are available.

Options Shown:

- Light Fixture
- Tool Trolley
- 12" Shelf
- Parts Cup Stringer
- Electrical Channel
- Flat Panel Display Arm
- FPD Keyboard/Mouse Holder
- Swing Arm Pegboard
- 6" Drawer (includes lock)
- 12" Drawer (includes lock)
- CPU Holder
- Footrest Tube
- Foot Pan

Pro Series Adjustable Height Workbenches

The ergonomically designed 930/940 Pro Series delivers the efficiency and convenience of height adjustability at a remarkable price. We've engineered these workbenches for quality performance. A cantilever support system, housing the hydraulic lifters, provides maximum leg room, while the bolted steel channel frame delivers a full 500-pound evenly-distributed load capacity. You can easily move up or down to the efficient functionality of a height adjustable worksurface.

Features:

- 12-inch adjustment range, from 30" to 42" worksurface height
- 1-1/4" thick worksurface with 180° rolled front edge for comfort. Surfaces are available in Standard or ESD laminate, with a wide variety of colors.
- Welded steel frame, finished in a choice of durable, baked-on powder-coat paint.
- Available options for suspended drawers/cabinets, electrical channels, and upper utility structures with shelving and lighting offer endless configurations.

Options Shown:

- MTS-I
- Light Fixture
- Tool Trolley
- 12" Shelf
- Multi Bin Panel
- Electrical Channel
- Swing Arm Pegboard

930 Pro Series

Height adjustment is manually controlled by a rotating hand crank positioned on the right or left side under the worksurface support frame and . The crank handle folds out of the way when not in use.

940 Pro Series

Height adjustment is electrically actuated via Up/Down pushbuttons. This controller is positioned on the right or left side, under the worksurface support frame.

Instrument Shelving

If heavy scopes, monitors or other equipment are being used at the workbench, an instrument shelf is a must. Workmaster™ Instrument Shelves **may be added to any Workmaster™ workbench or Pro Series Workstation**. They are finished in either Sky Blue or EZE Blue powder coat paint with White Laminate. All instrument shelf units are available in lengths to fit any basic, pedestal or cantilever bench.

Instrument Shelf shown with Sky Blue paint and White Laminate. Bench shown with Sky Blue paint and White contrast.

Multi-Task System Upper Structure

The Multi-Task System enables users to configure above-the-worksurface storage and options on an existing workbench. Perfect for upgrading on a budget!

The MTS is available in two models: MTS-I with three uprights for side-by-side shelves and options, and MTS-II with two uprights that allow full width shelves and options. Each twelve-gauge steel, double slotted upright is 48" x 2" wide x 1-7/8" deep. Heavy gauge, steel c-clamp mountings provide secure fastening to the worksurface with heavy duty thru-bolts. MTS upper structures will fit most benches, provided there is a clear 1.5" overhang in the rear.

Drilling and inserting will be required (a template will be supplied). If detailed specifications are required, please consult the factory.

MTS-I models provide three uprights for side-by-side mounting of half-width shelves and optional accessories

MTS-II models feature two uprights that allow full width shelves and optional accessories

MTS-I Upright Structures

 <ul style="list-style-type: none"> • 3 posts provide 2 side-by-side racks • 16 gauge tie beam at top of frame system • Mounts to a 1.25" or 1.75" work surface • Half length options are easy and convenient to adjust from shift-to-shift as needed • Options can be aligned or independently adjusted for maximum flexibility • Double slots allow all options to adjust in 1" increments • Template included with upright package • Retrofits to most other workbenches 	COLOR	DIMENSIONS	SHIP. We've seen what our customers like to build for themselves, so we've taken the liberty of sharing a few of the most popular configurations with you. These component combos form three super-functional packaging/shipping workhorses. And they couldn't be simpler to order; there's just a single part number for each. Chances are that one of these preconfigured models will suit you well. But if not, simply turn the page and build one configured just for you.

Smart Mobile Stations

See these Mobile Processing Stations and more Smart Mobile Station carts on the next page.

Smart Mobile Stations

The perfect partner to speed tasks in a wide variety of business environments.

- scanning
- diagnostics
- weighing
- order picking
- stocking
- testing
- inventory control
- printing

SMS carts are specialized, function-forward hybrids of the award-winning Dimension 4 workstation, rolling cart, and storage products. They combine the sophistication and unsurpassed quality of Dimension 4 design, scaled down for a very personal and mobile interaction. And they are strong! The Main Worksurface (top) supports 150 lbs., and the Bottom Shelf supports another 100 lbs. SMS Carts embody the IAC focus on ergonomics, and fit within any lean strategy (5S, Lean Manufacturing and/or Six Sigma). In short Smart Mobile Stations are the most functionally useful and versatile carts you can find.

Terms and Conditions

Orders placed directly with the factory are due and payable net 30 days. The F.O.B. point is our factory in Goodyear, Arizona, and shipments are freight collect or 3rd party billing. The minimum order amount is \$100.00 net, and all cancelled orders are subject to a cancellation charge of up to 25% of the original order amount.

“Quick Ship” five-day shipments will ship on or before the 5th working day ARO. Change orders received after 48 hours will not be accepted on five-day shipment orders. Five-day shipment is subject to availability.

Shipment

In order to achieve the most economical cost for the transportation of your work stations, the product is shipped K.D.F. (knocked down freight), which means that it will arrive disassembled and palletized ready for assembly.

Damage in Transit

For your protection, examine each shipment carefully for external damage. If there is any evidence of damage or shortage in transit, insist that the delivery carrier make appropriate notation on the freight bill before you sign anything. If, after receipt, any internal (or concealed) damage is discovered, immediately notify the carrier and request an inspection report to support your claim. Claims for damage or shortage in transit must be filed with the delivery carrier. IAC industries will not accept any return of merchandise that has been damaged in transit.

YOUR RECOURSE IS WITH THE DELIVERY CARRIER.

Packaging

Our packaging does not contain ODC's.

Return Merchandise

No goods are to be returned to IAC Industries without written factory authorization. A handling charge of 25% or \$50.00, whichever is greater, will be charged on all merchandise returned.

Specifications

IAC Industries reserves the right to make changes at any time, without notice, in color, prices, materials, equipment, specifications, and models. Although every effort has been made to insure the accuracy of all information contained in this brochure, IAC Industries cannot be held responsible for any omissions or errors in printing. Please check with your local IAC representative, or contact the factory direct, for the most complete and up-to-date information before ordering.

Warranty

IAC Industries' products are warranted to the original user to be free from defects in design, material and workmanship, given normal use and care, for a period of ten (10) years of single shift service, from the date of purchase.

With the exceptions noted below, IAC Industries, at its option, will repair or replace any product or part thereof which fails as a result of such a defect during the following warranty periods. (Pro-rated for multi-shift use.)

- All IAC Industries' products (except as noted) *Ten years*
- Operating components, functional mechanisms, high-wear parts such as chair pneumatic cylinders and casters. *Five years*
- Wood or wood/metal framed products *Two years*
- Textiles, covering materials, foam, finishes, exposed wood, fabrics, laminates, electrical components, and bench height adjustment cylinders and components *One year*
- Exclusion — HEPA filters (all HEPA filters are inspected, installed, and tested at the factory and are certified to meet Federal Standard 209E).

This warranty is limited to the replacement and/or repair only, of such defective part(s) authorized in writing to be returned to IAC Industries with transportation charges and costs prepaid by the purchaser, and provided that examination by IAC Industries discloses such defect. In no way shall IAC Industries be responsible for any damage caused by the carrier, abuse, negligence, misuse, user modifications, or customer's material. IAC Industries does not warrant the matching of color, grain, or texture.

Options, component parts, and laminates not manufactured by IAC Industries are warranted only to the extent of the original manufacturer's warranty.

IAC Industries will not accept unauthorized charges for expenses (i.e. labor and freight) incurred by the customer. Products which have been repaired or altered by anyone other than IAC Industries; or without IAC Industries' written authorization; or in IAC Industries' judgment have been subject to misuse, neglect, or accident; or use outside specifications by purchases; or others are excluded from this warranty.

This warranty is in lieu of any other expressed or implied warranty, including any implied warranty of merchantability or fitness for a particular purpose, and of any other obligations or liability on the part of IAC Industries.
